SUMMARY

AI and Machine Learning Engineer with a strong academic foundation and practical internship experience in data science and cybersecurity. Proficient in Python, AI/ML frameworks, and data wrangling. Proven ability to develop innovative solutions and contribute to technical projects.

EXPERIENCE

Data Science Intern

05/2025 – 06/2025

BrainyBeam Technologies Pvt. Ltd.

Remote

- Selected for an industry-focused data science internship.
- Applied data wrangling and analysis using Python, Pandas, NumPy, and Scikit-learn.
- Collaborated on ML pipeline development and integration for predictive modeling.

Cyber Security Intern

01/2025 – 02/2025

IBM Skills Build

Remote

- Acquired knowledge in network security, threat detection, and ethical hacking within cloud environments.
- Participated in SOC operations, focusing on real-time monitoring and incident response.
- Developed an LSB-based image steganography tool for secure data hiding.

Content Writer

09/2023 – Present

Cyber Security Club - ADIT

Anand

- Authored technical articles and awareness posts on cybersecurity topics including phishing, password security, malware analysis, and encryption.

PROJECTS

DataSaarthi, Conversational CSV Intelligence | *Python, Pandas, NumPy, Scikit-learn, Google Flash 1.5*

- Developed DataSaarthi, an AI-powered tool for critical analysis of large CSV files (200MB+).
- Leveraged Google Flash 1.5 model for natural language processing of user requests.
- Integrated functionality to merge datasets and generate 2D/3D visualizations based on user input.
- Impact: Enables efficient and intuitive analysis of large datasets through natural language interaction.

Granite Regulate, Data Compliance Engine | *Python, IBM Granite LLMs, FastAPI, Asana*

- Engineered a data compliance tool for real-time detection of PII/PHI in audio and structured data.
- Utilized IBM Granite LLMs to ensure adherence to GDPR and HIPAA regulations.
- Integrated Asana automation and developed a FastAPI backend for enterprise reporting dashboards.
- Impact: Streamlines data compliance processes and ensures regulatory adherence for businesses.

ReelReplyAI, Engagement Bot | *Python, Selenium, Instagrapi, Gemini API*

- Automated Instagram engagement by creating ReelReply AI, an autonomous comment reply bot.
- Implemented the bot using Selenium and Instagrapi for Instagram automation.
- Integrated Gemini's API to generate contextually relevant replies to reel comments.
- Impact: Enhances social media engagement and brand interaction through automated, AI-driven responses.

Multi-Dataset ML Pipeline | *Python, Streamlit, Numpy, Pandas, Scikit-learn, Seaborn, PIL*

- Built an interactive ML pipeline supporting classification and regression across six datasets.
- Performed EDA, preprocessing (StandardScaler, PCA), and trained Random Forest models.
- Visualized results with pairplots, heatmaps, PCA projections, confusion matrices, and predicted vs. actual plots.
- Impact: Simplifies multi-dataset analysis and real-time prediction through an intuitive, visual interface.

EDUCATION

A D Patel Institute of Technology, CVM University <i>B.Tech, Artificial Intelligence and Data Science, 9.15 CGPA</i>	Anand, Gujarat 09/2022 – 06/2026
Horizon Public School <i>Senior Secondary education (XII), Maths & Science, 88.60%</i>	07/2021 – 05/2022
Horizon Public School <i>Secondary education (X), 91.67%</i>	07/2019 – 05/2020

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, C++
AI & Machine Learning: TensorFlow, PyTorch, SpaCy, NLTK, Scikit-Learn, AI for Developers, Gemini API, IBM Granite LLMs
Data Science & Analysis: Pandas, NumPy, Matplotlib, Seaborn, Data Structures & Algorithms
Web Development & Automation: FastAPI, RestAPI, Selenium, Instagrapi
Cloud & DevOps: Google Cloud Platform, Firebase, Docker
Cybersecurity: Network Security, Threat Detection, Ethical Hacking, SOC Operations, Image Steganography
Core Concepts: Object-Oriented Programming
GIS & Remote Sensing: LIDAR Remote Sensing & GIS
Soft Skills: Adaptive Mindset, Team Player, Rapid Learner, Communication, Problem Solving

CERTIFICATIONS

Indian Space Research Organisation (ISRO) <i>LIDAR Remote Sensing & GIS</i>	Nov 2023
University of California, San Diego <i>Object-Oriented Programming in Java Specialization</i>	Oct 2022
University of Michigan <i>Capstone: Retrieving, Processing, and Visualizing Data with Python</i>	May 2022
University of California, San Diego <i>Data Structures and Performance</i>	Oct 2022
IBM <i>Machine Learning with Python</i>	Oct 2022

AWARDS & ACHIEVEMENTS

State Level Semifinalist - Code Unnati Innovation Marathon 3.0 (Top 60/3000)
Merit Rank Holder - Secured district merit rank in Secondary examinations.
Anchored IEEE Inspiro 2024, hosting a professional tech event involving 4+ institutes.
Led Meta Quest 3 Showcase at Gyanotsav 2025, engaging 2000+ attendees with 3D learning and future tech demonstrations.
