WORK EXPERIENCE

Junior Data Analyst

Sunbit

-  June 2025 - current
-  San Francisco, CA
- Streamlined recurring portfolio reviews by documenting logic and exceptions, *cutting prep time by 11 hours* per month.
 - Partnered with operations and product teams to identify and close 16 merchant reporting gaps, enhancing data accuracy for 7 stakeholder groups.
 - Converted complex financing results into clear, concise summaries, enhancing decision-making for weekly business reviews by clarifying key metrics and insights.

Data Analyst Intern

DoorDash

-  October 2024 - May 2025
-  San Francisco, CA
- Built a regional performance dashboard in Tableau, enabling 12 local operations teams to optimize delivery schedules and improve order accuracy by 13%.
 - Investigated fulfillment variance with R, using analytical curiosity to isolate menu and dispatch issues tied to \$18.4K in avoidable credits.
 - Supported KPI definition reviews with cross-functional partners, *improving metric consistency* across 126K order records.

PROJECT

Digital Analytics Association (DAA)

Member

- Developed an audience-performance dashboard in Microsoft Power BI to present channel and conversion insights for the final group analysis.
- Modeled engagement patterns in Python to test segmentation ideas and strengthen the project's recommendation framework.
- Contributed research and analysis that *raised peer evaluation results to 4.7/5* during the project review.
